29-30 April 2014

Supported by:

Research to Finished Product

Making Pharmaceuticals is the only event in the UK dedicated to the detailed and complex issues associated with sourcing, manufacturing, outsourcing and delivering consistent pharmaceutical products to the market.

Making Pharmaceuticals is designed to help industry improve manufacturing processes, address product formulation / reformulation, reduce undesired variability, deliver consistent product quality, improve process robustness and enhance efficiency.

It is also a focus for outsourcing in the pharmaceutical industry featuring a full range of contract services for licence holders, brand owners and manufacturers looking for outsourcing options from research & clinical trials to manufacture to packing to delivery.

Making Pharmaceuticals is designed to provide a forum that will help attendees to solve current challenges and to prepare for the ones to come.

The attendee profile includes:

- Chemists & Formulators
- Consultants
- Engineers / Engineering
- Importers
- Management
- Marketing & Business Development
- Microbiologists
- QA/QC
- Qualified Persons
- Production
- Process Development
- Regulatory
- Validation Disciplines

Just some of this year's exhibitors...

Adept Pure Water
AJ Tyzack & Co
Anton Paar
Ash Scientific
British Contract Manufacturers and Packers Association
Becton Dickinson UK
Caleva Process Solutions
Cherwell Laboratories
Butterworth Laboratories
Diaphragm Pumps
Endecotts
Intertek
Olsa
Pharmig
Purite Water Purification Systems
Q-Lab Europe
Reading Scientific Services
SEPPIC Air Liquide Healthcare Speciality Ingredients
Silverson Machines
Steritech
Synergy Health
Trinity Scientific
WEB Packaging
Ytron Quadro (UK)

The exhibition is an effective opportunity to see what is available on the market, discuss key issues and come away with clear approaches in mind. Please visit the web site to register, to qualify for benefits and for everything else you need to know.

2014 Seminar Programme

29 April 2014: Room A

All FREE to Attend

08.45 - 09.15	Exhibition Opens
09.15 - 09.35	The Potential for Open Innovation in Pharma NPD
09.35 - 09.55	Patents and Intellectual Property: Issues Relevant to Pharmaceutical Manufacturing
09.55 - 10.15	Biocatalysis Applications and How These are Applied to Manufacture and Scale-up
10.15 - 11.30	Break
11.30 - 11.50	Manufacture
11.50 - 12.10	Risk Assessment / HACCP
12.10 - 12.30	Packaging – The Latest Thinking on Consumer Research
12.30 - 14.00	Break
14.00 - 15.00	The Manufacture of Pastes, Creams and Ointments
15.00 - 15.45	Break

Pharmig Session

15.45 - 16.15	Microbiological Method Validation – Key Aspects
16.15 - 16.45	Fungal Contamination in Pharmaceutical Products
16.45 - 17.30	Exhibition Reception
17.40 - 18.40	How to Get the Government to Finance Your Business With Grants and Soft Loans

29 April 2014: Room B

08.45 - 09.15	Exhibition Opens
09.15 - 09.35	Making Tablets Safely and Reliably – Applications of the GTP-1
09.35 - 10.15	Clinical & Commercial Manufacture
10.15 - 11.30	Break
11.30 - 11.50	Analytical Sciences & Quality Assurance
11.50 - 12.10	Analytical Considerations for Clinical Development Programmes
12.10 - 12.30	Quantum Cascade Laser FTIR for use in Pharmaceutical Applications Such as Cleaning Validation for Non-Contact Analysis, Coating Analysis of Tablets
12.30 - 14.00	Break
14.00 - 14.40	Formulation & Delivery
14.40 - 15.00	Taste Evaluation / Acceptability Testing of Pharmaceutical Products in Children and Adults
15.00 - 15.45	Break
15.45 - 16.05	EU Packaging Directive
16.05 - 16.45	Packaging
16.45 - 17.30	Exhibition Reception
